

Custom Furniture Built to Last

Built tough!

This students' suite was installed
in over 1100 rooms at the
University of Alberta.

Custom Furniture to Fit Your Needs ...and Your Budget

Heartwood's custom furniture division is your best choice for large-scale furniture projects of every description. Heartwood has a fifteen year track-record of manufacturing furniture orders for schools, hospitals, libraries, offices, and the hospitality industry.

Whatever your requirements, Heartwood can work with you to create furniture that is the best solution for both your physical needs and your budget. Because Heartwood has a large, computerized manufacturing facility, we have the ability to significantly reduce costs while delivering furniture that is attractive, functional, and highly durable.

From Concept to Completion

Southern Interior Cancer Centre

When you are in the planning stage for an upcoming project, our technicians are available to work with you on the best possible design and will help you find ways to get the most value for your investment.

Once you give us the go-ahead to initiate a project, you can then sit back as Heartwood's professional staff kicks into high-gear to bring the project to completion. Heartwood's internal project management system is geared to process large, complex orders, on time and on budget, so you can rest assured that the furniture will be installed when you need it!

High-Pressure Laminates for High-Stress Environments

Heartwood custom furniture is built to demanding standards that maintain an “as new” appearance for years after purchase, even in a high-traffic working environment.

Heartwood builds quality into each project right from the start. Our staff will help you understand the quality differences between components and materials, so you can make the best choices for your project and ensure that there will be no “surprises” down the road. Our goal is to help you create a furniture solution that will exceed your expectations of durability and longevity.

And our furniture looks great, too! With a wide selection of laminate wood grains and designer colours and finishes to choose from, Heartwood products are suitable for every situation, from low-budget motels to high-end executive suites.

Our products Stand Up

Company Overview

As one of Western Canada's largest furniture manufacturers with over fifteen years of experience servicing Western Canada and the Pacific Northwest, Heartwood remains committed to building high quality custom furniture products at competitive prices delivered on time, as promised. Heartwood has distinguished itself through its commitment to outstanding customer service and support.

The company's staff of over sixty office and production people create furniture solutions from a large state-of-the-art manufacturing facility located in Kelowna, British Columbia. Major investments in CNC machining technology and cutting-edge manufacturing software ensure accuracy and reliability in all of the products we build. Let us collaborate with you to design and build your next furniture project.
